AMENDMENT

In response to the Office Action dated January 16, 2003, please amend the above-identified application as follows:

IN THE CLAIMS:

Please replace claim 13 as follows.

13. (Amended) A method for thermally connecting the terminal areas of a contact substrate to the terminal areas of a carrier substrate, the method comprising the steps of:

depositing adhesive material between the substrates in the plane of the connection;

arranging the substrates in a connecting position such that the terminal areas are situated opposite one another in the plane of the connection and substantially simultaneously displacing the adhesive material deposit arranged between the substrates in the plane of the connection
